Buffalo, New York 14210

Dear Jon Williams:

**Riverview Innovation &  
Technology Campus, #C915353  
Tonawanda (T), Erie County  
North Storm Sewer and  
Box Culvert By-pass Work Plan**

The New York State Department of Environmental Conservation (NYSDEC) has received the revised *North Storm Sewer and Box Culvert By-pass Work Plan* [May 2024] for the above referenced site, as submitted by Inventum Engineering, PC. Based on our review, the previous comments have been addressed and the work plan is hereby approved.

The use crushed concrete from Pile 10 as part of the drainage swale construction is only approved on a temporary basis to improve stormwater quality. A portion of this pile does not meet the commercial use soil cleanup objectives and will need to be removed and/or placed below a site cover as part of the final remedial action.
